Experience

Frontend Developer, 02/2025 - present

- ◆ **Biz Network -** www.bizn.in
  - Developed API routes and frontend integration to streamline data flow.
  - Built responsive UI using **Next.js, Tailwind CSS**, and reusable components.functionalities, ensuring robust and scalable business platforms.
  - Improved interface performance and reusability by ~15%.
  - Collaborated with senior developers to align on scalable architecture.
  - Ensured clean, maintainable code with modern development standards.
- ◆ **Jaaaga.com -** www.jaaaga.com
  - Set up a custom **Sanity CMS** for managing admin and user content.
  - Designed dynamic schemas and real-time API integration.
  - Built admin and user interfaces for smooth content control.
  - Enabled non-technical users to manage data effortlessly.
  - Reduced manual updates and boosted CMS efficiency by 90%

Software Engineer, 05/2024 - 02/2025

- Built and deployed multiple **frontend UI websites** using **Next.js**, **React.js**, **Tailwind CSS**, and **TypeScript**
- Created dynamic, responsive interfaces with **reusable components** and clean layouts.
- Integrated **Sanity CMS** to manage content like blogs, events, and static pages.
- Collaborated with backend teams to integrate APIs built with **Prisma ORM** and **PostgreSQL**.
- Worked within a **Turborepo monorepo**, aligning frontend development with full-stack workflows.

Projects

Biz Network - https://www.bizn.in/

- Led the development of a B2B networking platform using Next.js, where professionals register businesses and exchange referrals.
- Built responsive UI components with **Next.js**, **Tailwind CSS**, and **TypeScript** for registration, referrals,User Profiles and membership managements and Dashboard.

- Integrated frontend API fetching and collaborated with backend team using **Prisma ORM** and **PostgreSQL** for data management.
- Structured the frontend using **Turborepo** for better code organization, component reusability, and efficient development workflows.
- Collaborated closely with the client to gather feedback and deliver features iteratively.

WEN (Women Entrepreneurs Network) – https://www.bizwen.site
- Developed a **CMS-powered frontend website** for managing and displaying events, blogs, and galleries.
- Built using **Next.js**, **Tailwind CSS**, and **TypeScript** with a fully responsive UI.
- Integrated **Sanity CMS** to allow admins to manage dynamic content including blogs, upcoming events, and event galleries.
- Created clean, modular UI components to ensure content is presented consistently across all sections.
- Focused on a scalable frontend structure for easy content updates and future enhancements.

Influencers Club
- Developed a **frontend website** to display influencers, events, blogs, and media galleries.
- Built with **Next.js**, **React.js**, **Tailwind CSS**, and **TypeScript** for a fully responsive UI.
- Integrated **Sanity CMS** for admins to manage all dynamic content including influencer profiles, social media links, blogs, events, and image galleries.
- Designed clean, reusable UI components for consistent content presentation.
- Ensured smooth CMS integration and content scalability for future growth

Other Projects: Built several frontend and full-stack applications using Next.js, React, Tailwind, Prisma, PostgreSQL, and various CMS platforms - spanning domains like agri-tech,and finance.

Skills

- **Programming Languages:** JavaScript, TypeScript
- **Frontend:** Next.js, React.js, Redux, Zustand, HTML, CSS, Tailwind CSS, Framer-motion, Modern UI Libraries.
- **Backend:** Node.js, Express.js,Postgresql, PrismaORM, MongoDB, Zod
- **AI Tools:** open AI APIs integration, gemini AI APIs integration, claude, copilot.
- **Tools & Technologies:** CMS, Sanity, AWS, Next-Auth, Docker, SMTP, Git, Payment gateways, Twilio.

- **Other Skills:** Agile Development, Problem-Solving, Communication, Teamwork, Adaptability.

Education
B.Pharmacy, **Vaagdevi college of Pharmacy** 07/2019 - 06/2023

Certification
Entri Elevate - MERN Stack Developer,2023 - 2024
Entri Elevate - Independence Day Theme Frontend Website Winner ,2024
Illinios Institute Of Technology - MERN Stack Developer,2023 - 20246
Entri Elevate - Internship in Entri Elevate ,2023 - 2024
